

## Migration Health Assessments for United States of America-Bound Migrants

All applicants are required to undergo a migration health assessment as part of their visa application process for the United States of America. In this document, you will find important information related to your upcoming migration health assessment at one of IOM's Migration Health Assessment Centres (MHACs) in Viet Nam.

**You will also be able to download this document at the end of the appointment-making process.**

### IOM Hanoi MHAC Contact Information

**Email address:** [HANOI@iom.int](mailto:HANOI@iom.int)

### IOM HCMC MHAC Contact Information

**Address:** 1b Pham Ngoc Thach P Ben Nghe Q 1 TPHCM

**Phone Number:** +84 28 3822 2057

**Opening Hours:** 08AM–05PM from Monday to Thursday; 08AM-12PM on Friday

**Email address:** [HCMC@iom.int](mailto:HCMC@iom.int)

## What Should I Expect at my Appointment?

The scope of the migration health assessment varies depending on factors such as your visa category, age, gender and current health status. The list below shows some of the procedures that you or your family (if they are applying to migrate with you to the United States) might receive:

- Registration.
- Counselling to explain the health assessment process (at the end of the counselling you will sign an informed consent form).
- Medical examination, which may include the following:
  - A review of your medical history and current symptoms.
  - Taking your measurements and vital signs.
  - A detailed physical examination to assess your physical and mental status.
  - A chest X-ray.
  - An Interferon Gamma Release Assay (IGRA), a blood test, for tuberculosis.
  - Urine test for Gonorrhoea.
  - Syphilis test.
- Vaccinations to protect yourself and others from certain vaccine-preventable diseases, if needed.

**Breakdown of Migration Health Assessment Procedures, by Age of Applicant:**

Below the Age of 2 Years	Between 2 And 14 Years	15 Years and Above
<ul style="list-style-type: none"> <li>- Medical examination</li> <li>- Any necessary vaccinations</li> </ul>	<ul style="list-style-type: none"> <li>- Medical examination</li> <li>- Blood test for tuberculosis</li> <li>- Any necessary vaccinations</li> </ul>	<ul style="list-style-type: none"> <li>- Medical examination</li> <li>- Chest X-ray</li> <li>- Urine tests</li> <li>- Blood test for syphilis</li> <li>- Any necessary vaccinations</li> </ul>

*All basic requirements are done on the same day, during the same appointment.*

**Will I need additional tests or procedures?**

Additional tests, treatment or immunizations may be in order to complete the health assessment and/or to comply with the requirements of the immigration authorities, based on health conditions identified during your examination. In such an event, you will be provided with additional counselling and more information during your appointment.

**Important Notes**

**Vaccinations:**

**Please bring your vaccination records.** The doctor will need to review your vaccination history to determine if any other vaccinations are needed. If you are unable to bring your vaccination record, you will be considered ‘not immunized’ and will be given the recommended vaccines according to your age and medical status.

*Please note that refusing vaccinations may negatively affect your United States immigration prospects.*

**Minors:**

Applicants under the age of 18 must be accompanied by a **parent or guardian** who can provide consent and make decisions on their behalf.

**Pregnancy:**

If you are pregnant and undergoing a migration health assessment, you may choose to **either** proceed with the chest X-ray with a double leaded shielding to protect you and your unborn baby **or** wait to proceed with the migration health assessment until after giving birth.

If you choose to proceed with the chest X-ray, you will be requested to sign an additional consent form.

**Tuberculosis (TB):**

TB is a contagious bacterial infection that is spread from person to person through tiny droplets in the air. TB can be either:

- (1) Latent TB:** when you have the bacteria in your body, but you don’t have any clinical manifestations. In order to diagnose latent TB, active TB should be ruled out.
- (2) Active TB:** when you have the bacteria and have clinical, radiological or laboratory manifestations.

**You might be asked to undergo further testing if the doctor suspects you have TB.** In such an event, you will be provided with additional counselling and more information during your appointment.

You will be requested to provide three (3) sputum samples over 3 consecutive days. These samples are then tested in a laboratory; **it can take up to 8-10 weeks to obtain a result.**

If you are required to complete this test, your health assessment certificate will be put on hold until the results are received. If you are found to have TB, you will need to successfully complete treatment before resuming the immigration process.

Good news! **TB is treatable** and most people can be cured with a few months of oral antibiotics.

## What Do I Need to Bring to My Appointment?

### Identification:

- Passport (original).
- Case Number (visa interview appointment letter).

### Medical Records:

- Any medical reports on past or current medical conditions.
- Vaccination records.
- Child Health and Development Record for children, if available.

### Other:

- Eyeglasses or lenses, if you wear them.
- Address in country of origin printed and in English.
- Address in the United States printed and in English.

## Advice for the Migration Health Assessment

▸ For your physical examination, you will be asked to remove your clothes and will be provided with a medical gown, **but please keep your underwear on (see image at right).**

▸ You **may request a chaperone** to be present at your physical examination.

▸ **Please do not conceal any medical conditions;** deliberate attempts to hide them will be reported to the US immigration authorities.

▸ **Please do not conceal your pregnancy;** being pregnant will have no impact on your immigration prospects.

▸ **Please postpone or re-schedule your appointment if you or your child are ill** with a fever or have a rash.

▸ There is **no need to fast** prior to your appointment.

## Migration Health Assessment Fees and Payment Information

### Fees, by Age of Applicant:

<b>Below the Age of 2 Years</b>	<b>Between 2 and 14 Years</b>	<b>15 Years and Above</b>
USD 165	USD 240	USD 275

*Additional fees will apply if vaccinations or other investigations are requested.*

### How to Pay for the Migration Health Assessment:

- Payments should be made at the IOM MHAC on the day of the migration health assessment in either USD or VND. Individuals wishing to pay in VND should consult the applicable IOM exchange rate shown in the banner at the top of the page; it can also be found in the My Appointment section of the site.
- **Cash and credit cards are accepted.**
